Nice story worth 15 min.

GJ. Solid little rogue-like platformer. Feels like a 2D Dark Souls.. Cool Game But the only thing that annoy me is how many ♥♥♥♥ing levels are there im at stage 30 and when is it gonna end XD but overall i love the game so imma keep playing 6/10 would recommened.. Really really boring.. Wonderful, addictive game with a well-considered design and delightful look.. Chill game for one playthrough on easy, worth the 8 bux. :)

The finale to a great game. A little bit of Aliens movie and the packet is sealed. If you played the previous two definitely grab this one too!. Paid as much as I would for a decent cheese burger and it was a fun game to play for a few hours. Not terribly long, moderate replay value, and like Rogue Legacy, you spawn as a new hero with new abilities, but I didn't die enough to fully enjoy that mechanic.

7.5/10 would play a game similar.. Finally. A light-hearted RPG Maker game of some quality. The girls' character designs are all great, the dialogue is short and to the point, the story is goofy but not tedious. There are lots of unlockables and a constant flow of treasures and abilities to unlock from each of the girls who resemble a variety of typical classes like Fighter or Mage.

It's the frivolous, high-paced Dragon Quest knockoff you've been waiting for. Recommended to fans of Half-Minute Hero or Azure Dreams.

The only caveat: this game is anti-grind, like Half-Minute Hero. You do a lot of running at high speeds and slaughtering parties of enemies at high speeds. The game makes fairly thin pretense at gameplay. That's why the steady stream of party member discoveries and unlockables is good, for feeding the frenzy. You're basically bingeing on cute unlockables.. Excellent and wide ranging look at variety of indie devs and their stories.. Bloody Walls is not a bad way to spend half an hour, but it is not much more than that and feels more like a demo than an actual game. It is a good thing it is free because there is simply not enough content or depth here to keep anyone occupied for long, but I can definitely see this being turned into something real with the addition of a story, more locations, more weapons, and more enemies to kill. In its current state, however, I would recommend the free content only and to steer clear of the paid DLC.. For \$2 I got the♥♥♥♥♥scared out of me for 1 hour. If you like small Indie Horror games get this.. It's short, but 100% my aesthetic. I really enjoyed it and would've loved a longer version. Essentially a really atmospheric horror walking sim, though, so if you're not into that you may not enjoy it.. Fun little game. I wish it had faster turning. Seems right for the price.
